

Press Runshooter™

A tail threading solution for press section

The **Runtech Press Runshooter™** is designed for center roll and separate press tail threading.

The tail can be guided to the ropeless dryer section or to the rope nip.

Three different models are available:

- manual
- semi-automatic
- automatic

BENEFITS

- Easy and trouble free tail threading
- Quick installation and start-up
- Adjustable air blow angle
- Low air consumption
